At the end of the race the race number is offered to the participant by the organization. The race number and the chip are equipment for personal use and non-transferable and not allowed to be used by another person.

Art. 23 - All participants must place the race number on the front of the bicycle, in the area of the handlebar so as to be entirely visible. Any athlete who fails to comply with this rule will be excluded from the event. It is strictly forbidden to modify the graphical content contained on the race number on the bicycle, or add any type of message or image-oriented advertising or otherwise.

Art. 24 - The chip must be in the right position on the backside of the frontal identification number for the bike.

Art. 25 - The organization can not be held responsible for errors or failures of the chip chrono system, either by improper use by the participant, or for any other reason.

ON THE ROAD

Art. 26 - The event will take place on OPEN ROADS WITH TRAFFIC. All participants must strictly comply with traffic rules contained in the Portuguese Road Code, with particular attention to the requirement to keep the right side of the road and observe the rules of priority at junctions. Any person who does not respect these rules will be immediately expelled from the event and will be barred from participating in subsequent editions of the event. Each participant is required to read and sign a statement provided by the organization which declares to know and take the risks inherent to participation in a competition open to traffic. In this statement the athlete precludes the organization responsibility for any accident derived from their participation in the event. However the participants are covered by the event insurance.

Art. 27 - In order to provide the concept of "everybody rides on his own pace" in all the course, the organization's vehicles will follow in front of the race with an appropriate speed to not interfere with the pace of the participants. However, if necessary, the vehicles of the organization may restrict the speed of the participants. In these situations the participants cannot surpass the organization's cars circulating in front. Athletes who violate this rule are out of the safety system of the event, following at their own risk.

Art. 28 - Assistance provided to athletes by support vehicles outside the organization is strictly prohibited. It also prohibited for vehicles to accompany the cyclists during the event. Information will be provided by the organization about the places recommended for caregivers to assist the transition and provide support to athletes. Security forces (Police) are present to prevent movement of support vehicles in the middle of cyclists in the race, ensuring compliance with the code of the road.

Art. 29 - The control of the event will be made by security forces, composed of elements of the GNR (National Republican Guard), corporations belonging to the territory and the traffic Corp, which will ensure compliance with traffic rules by all those involved in the event and other vehicles on the road.

Art. 30 - The time control of each athlete will be carried out electronically, with chips. The use of the chip is mandatory, the athlete must meet the rules for its correct positioning and use. Improper use of the chip or non-use participation of an athlete does not show in the registration of its passage through the timing controls stipulated by the organization, causing the disqualification, with the consequent absence of the final list of times and the loss of his or her proof of participation.

Check points, where times will be recorded, will be located in the arrival and departure and other points along the race route.

Art. 31 - To ensure the integrity and safety of athletes, there are control points, which will set time limits for passing. Athletes who come to these control points after the time limit set for each control will be obliged to abandon the event and be collected by the vehicle "broom wagon" to the finish. Participants who choose to continue by their own means will be required to report at the checkpoint with time and respective number of participant and will cease to be governed by the event organization and will carry on at their own risk from that point.

Art. 32 - Athletes who drop out during the event must address the organization's members, in person or by phone, announcing their withdrawal. Upon determining the absence of an athlete, rescue services will be advised. Any person who didn't announce his or her withdrawal can be charged for the costs of the search and rescue. In addition will be punished with a ban from participating in later editions of the event.

Art. 33 - Athletes must strictly comply with the time, including the time of departure, ensuring that they start before the sweeper car. Who doesn't respect this rule of proof will be

participating at its own risk, out of the organization's control and responsibility.

Closing Time of the Start Checkpoint (km 0) - 08:40 h
